### A Tribute to Crisco

A remarkable tribute to the quality of Crisco was received from the chef of one of the foremost hotels in the United States.

For some time he had been buying Crisco in moderate quantities. When without warning his orders were more than doubled a Crisco representative called to see what had happened. It was found that while formerly the chef had been using Crisco only for pastry and other bakery foods and had done his frying with the fat obtained from his meats, he had decided after experimenting with Crisco to sell the meat fats and use Crisco exclusively. He is now using

**CRISCO**  
For Frying - For Shortening  
For Cake Making

for frying as well as for shortening because he knows that Crisco fried foods are better and that the guests of his hotel cannot complain of these foods being indigestible. He does this in spite of the fact that he pays for Crisco three times as much as he gets for his meat scraps. Scientific cooks the country over are using Crisco because they understand it. They judge a food product by what it will accomplish. And they have found that Crisco accomplishes wonderful results in cooking.

Housewives can profit by their experience. If Crisco is the choice of chefs, Domestic Scientists and hospital dieticians, it is very likely to please everyone.
